

## **SPONSORSHIP DETAILS**

Our Department is conducting National level conference on **“Electrical Engineering and Embedded Systems”**. It is a platform for researchers to present and exchange their ideas with academicians. Invitations have been sent to all leading organizations who are actively involved in research to participate in the conference. We have also planned to organize tutorial sessions to be delivered by experts, which are sure to trigger the research minds.

With the goals set as above, the conference venue will be a very good platform for exhibiting your organization name and products. The conference will fetch you more users of your products and will lead to fruitful research collaborations.

The format for sponsorship is enclosed herewith. Your sponsorship and active participation are welcome.
