

ALAGAPPA COLLEGE OF TECHNOLOGY
ANNA UNIVERSITY:: CHENNAI 600 025

DEPARTMENT OF CERAMIC TECHNOLOGY

Product Development Club under the supervision of **Dr.K.Kalaichelvan** and **Ms.A.Nanthini** encourages students to come up with ideas on developing new products in ceramics.

The students under product development club developed a '**Tape Casting Machine**' to make thin ceramic tapes of upto 10micron thickness, to be used as substrates or as electrodes in fuel cells.
