**EXTENSION ACTIVITIES - Training for students & Industry Personnel**

- Artificial Intelligence & Machine Learning
- Generative Design & Topology Optimisation
- Internet of Things (IoT)
- Bio Printing
- Electric and Hybrid Vehicles
- 3-D Printing
- CATIA V5-6 R2019
- ANSYS Fluent (CFD) 2020 R1
- Hypermesh 2019

- CNC Programming using Master CAM 2020

**MAJOR PROJECTS HANDLED**

- FEA
- CFD
- 3-D Printing

**POSTGRADUATE DEGREE PROGRAMME**

AU-FRG ICC offers a Post Graduate Degree programme on M.E. Product Design and Development in Part time mode (3 years) with latest curriculum and syllabi framed to suit the needs of the Industries.

AU-FRG INSTITUTE FOR CAD/CAM

Anna University has been in the forefront of International co-operation programmes in Engineering and Technology and has received financial and expert assistance from many developed countries for enhancement of infrastructural facilities in emerging areas of technology.

AU-FRG Institute for CAD/CAM was established at Anna University in Feb 1996 with assistance from the Federal Republic of Germany (FRG) amounting to D.M. 1.4 million. The major objective of AU-FRG Institute for CAD/CAM is to provide comprehensive technical assistance to Indian industries in enhancing their productivity and product design capabilities at optimal cost, thus enabling them to become global players, with the deployment of these emerging tools of modern technology.

AU-FRG Institute for CAD/CAM with its unique strength of experts with vast experience in various Engineering fields has been consistently able to carry out Industrial projects by using the latest available hardware and software facilities. Projects involving New Product Design and Development. Engineering analysis & flow analysis have been handled successfully for many industries, Research establishments, Government organizations and Medical field.

FACILITIES

- Training Bay
- Seminar Hall
- Conference Room
- Class Room
- Library
- Project Bay

RESEARCH & CONSULTANCY AREAS

- New Product Design & Development
- Generative Design & Topology Optimization
- Product Life Cycle Management
- Computer Aided Product Design
- Computer Aided Manufacturing
- Rapid Prototyping
- Additive Manufacturing
- Reverse Engineering
- Stress & Vibration Analysis
- Dynamic Analysis
- Flow & Thermal Analysis
- Non Linear Analysis

RAPID PROTOTYPING

- 3D Printing EDEN 260V
- Uprint SE 260V
- Accucraft 1250, 260V

HARDWARE

- DELL PowerEdge T440 Tower Server
- WIPRO server with Quad Processors and 8 GB RAM
- Networked HP, DELL & FUJITSU CAD workstations - 62NOS
- HP Z800 workstation with 12 core processor and 16GB RAM
