Funded Projects Completed (Last 5 Years)

Sponsored Projects Completed – 10
Sponsored Projects Ongoing – 05

Name of the Project	Year of Award	Name of the Funding Agency	Amount (INR in Lakhs)	Name of the Principal Investigator / Co Investigator
Design and development of web based Telehealth consulting system	2015	DST	22	Dr. S. Muttan
Establishing a Facility for Calibration and Testing of Critical Care Medical Equipment	2016	DST	298	Dr. S. Muttan, Dr.M. Sasikala, Dr.S. Poonguzhali
RFID Based Infant Theft prevention systems	2016	DST	23	Dr.S. Muttan, Dr.K. Gunaseelan
Development of Tactile sensor based ligature controller to assess pancreatic leak after whipple's procedure	2017	DST	29	Dr.S. Poonguzhali, Dr.M. Sasikala
Wireless Body Area Networks for Tele medical Applications	2017	UGC-SAP	60	Dr. S. Muttan, Dr. M. Meenakshi
Development of Spread Spectrum-CDMA based transceiver using AD9361 platform	2018	RCI, DRDO	9.5	Dr.P.V. Ramakrishna
Development of scheme for high precision altitude tracking and leakage rejection for spread spectrum altimeter	2018	RCI, DRDO	9.85	Dr.P.V. Ramakrishna
Development of Low Cost Sweep VEP System	2019	DST	44.8	Dr. S. Shenbaga Devi
Design and development of bio-potential signal analysis system for control of mobility assistive device	2020	LSRB-DRDO	30.55	Dr. M. Sasikala (PI), Dr. S. Poonguzhali (CoPI)
