

ABOUT THE INSTITUTE

Madras Institute of Technology is one of the premier technical institutions started in the year 1949 by Shri. C. Rajam, an eminent industrialist. The institute was the result of a bold experiment in technical education as it introduced for the first time, totally unconventional Engineering courses such as Aeronautical Engineering, Automobile Engineering, Electronics Engineering and Instrumentation Engineering. It was merged with Anna University in the year 1978.

ABOUT THE DEPARTMENT

The Department of Electronics Engineering established in the year 1949, has its core strength in the leading areas of Electronics & Communication technology. The academic programmes offered in the Department are B.E (Electronics and Communication Engineering), M.E (Communication and Networking, VLSI Design and Embedded Systems & Wireless Technologies). The cutting edge research areas include Image Processing & Pattern Recognition, Communication Technologies, Network Security, Sensor Networks, Optical Communication, Signal Processing, RF System Design, Internet of Things, 5G/ 6G Mobile Communications, Sensors and VLSI. The Department has collaborative partners from academia and industry both within India and worldwide.

LOCATION

Madras Institute of Technology is located in Chrompet, Chennai, Tamil Nadu, India and the campus is very close to Chromepet railway station.

ABOUT THE CONFERENCE

The National Conference on AI Solutions for Sustainable Electronics and Wireless Systems (AISSEWS 26) aims to bring together researchers, academicians, industry professionals, and students to explore the transformative role of Artificial Intelligence (AI) in sustainable electronics and wireless communication systems. This conference will provide a platform to discuss cutting-edge AI-driven innovations, eco-friendly solutions, and energy-efficient wireless technologies for the next generation of smart and sustainable systems.

CALL FOR PAPERS

Topics not limited to

- Communication Networks
- Wireless Sensor Networks
- Internet of Things
- VLSI Design and Embedded Systems
- Robotics
- RF System Design
- Artificial Intelligence / Machine Learning
- Signal / Image Processing
- MEMS

SUBMISSION GUIDELINES

Original research articles not exceeding 6 pages typed in IEEE double-column format should be submitted on or before 20.12.2025 through Google link: <https://shorturl.at/2GoDA>
