

## ABOUT THE INSTITUTE

University College of Engineering Ramanathapuram was established in the year 2008. The campus is committed to provide quality, cost-effective education and training in Engineering and Technology. Its motive is to enable students to stand on their own feet and to equip them to contribute to the Technological, Economic and Social development of India. The campus pursues excellence in providing training to develop the sense of professional responsibility, social and cultural awareness and set the students on the path to leadership.

## ABOUT THE DEPARTMENT

The Department of Computer Science and Engineering was started in 2008. The department has a team of dynamic, young and dedicated staff, with specialization in wide array of areas. The department has one doctorate and five faculty members presently pursuing the doctoral programme.

## OBJECTIVE OF THE FDP

This faculty development programme aims to provide opportunity for teachers working/studying in various academic institutions to enhance their knowledge in the area of Speech and Image processing. The Deep Learning is a major step forward in how computer system adapts, evolves and learns. It has widespread application in almost every industry and is considered to be a big technological shift, similar in scale to past events such as the industrial revolution, the computer age, and the smart phone revolution. Upon completion of this FDP, the participants can able to understand both theoretical and problems involved in that field.
