THE INSTITUTE

Anna University, University College of Engineering, BIT Campus, Tiruchirappalli was established by the Government of Tamil Nadu as a "Technical Institution" at Tiruchirappalli - known as RockFort city, with rich cultural heritage and home to many reputed educational institutions. University College of Engineering, Bharathidasan Institute of Technology Campus, Tiruchirappalli is a constituent institution of Anna University Chennai. The Institution is established with a view to impart quality student-centered technical education, so as to produce proven technocrats and to strive hard for continuous development and improvement in learning, research, and developmental activities. Teaching, Research, and Extension services are carried through various Departments and Centers of the Institution. The Institution also works toward fostering partnerships with academic and industrial experts to provide quality education and opportunities for entrepreneurial development by providing hands-on training. BIT has carved a niche for itself in providing technical education in the disciplines that are rare of their kind in our country. Aiming at excellence, the Institution offers Research program and UG/PG program in various disciplines.

THE DEPARTMENT

The Department of Biotechnology was started in the year 1999 with a vision to develop technical manpower in the wide area of biotechnology. It is a "DST-FIST Sponsored Department" and is currently offering B.Tech., M.Tech., MS (by research), and Ph.D. degree program in Biotechnology. The department attracts meritorious students for both B.Tech. and M.Tech. Degree program. The UG and PG program are designed to train the students to become masters who can identify a problem and to solve it through the biotechnological approaches.

OBJECTIVES :

To make a significant contribution in enabling the development of better healthcare, enhanced food security more efficient industrial development processes etc. This programme intend to promote the development of sustainable application of biotechnology and establish appropriate enabling mechanism, especially within developing countries.
