ABOUT THE WORKSHOP

Generative Artificial Intelligence (GenAI) is Artificial Intelligence (AI) capable of generating text, images, or other media, using generative models. GenAI can be used for various sectors such as Education, Entertainment, Industry, Healthcare, Games, Business etc. Generative AI can be used to , create content and marketing strategies, write code, design products, streamline operations, analyze legal documents, provide customer service via chatbots, and even accelerate scientific discovery. This workshop aims to familiarize participants with the concept and practical implementation of Generative models to provide them the ability to design their own GenAI solutions.

TOPICS TO BE COVERED

- Introduction to GenAI Technologies
- Large Language Models (LLM)
- Content Creation & Summarisation with GenAI
- GenAI models for Image Creation
- Open AI's CLIP & DALL-E2
- Ethical considerations in GenAI
- Learning in GenAI
- Visual (2D/3D) Applications of GenAI

ABOUT THE UNIVERSITY

Anna University was established on 4th September 1978 as a unitary type of University. It offers higher education in Engineering, Technology and allied Sciences relevant to the current and projected needs of the society. Besides promoting research and disseminating knowledge gained there from, it fosters cooperation between the academic and industrial communities.

ABOUT CEG AND DCSE

College of Engineering Guindy (CEG) is India's oldest engineering and technical institution established in 1794. It was the first college in the country to have its own postage stamp to mark the 200th anniversary of the institution. The Department of Computer Science and Engineering (DCSE), was established in September 1987. The Department imparts world class training and research with state of the art computing facilities to the students. It also promotes active industry-institute collaboration by identifying areas of interest and taking part in sponsored research projects and consultancy services.
