Venue: Conference Hall,

**Anna University Regional Campus - Tirunelveli
Tirunelveli - 627 007.**

IMPORTANT DATES:

Submission of Application : **13/06/2018**

Intimation of Selection : **14/06/2018**

Confirmation by Participants : **15/06/2018**

SEVEN DAYS FDTP

ON

**CE6505 DESIGN OF REINFORCED
CONCRETE ELEMENTS**

June 18-24, 2018

Co-ordinators

Dr. N. Sakthieswaran

Dr. O. Ganesh Babu

Sponsored by

**Centre for Faculty Development,
Anna University, Chennai**

Organized by

Department of Civil Engineering,
Anna University Regional Campus-Tirunelveli,
Tirunelveli – 627007.

About the University

Anna University was established in the year 1978, and acts as a frontier in providing higher education in various Engineering, Technology and Advanced scientific disciplines. The University aims at achieving high quality research on current areas of research. Since 2001, the University has taken another major responsibility of Managing and improving the quality of engineering education in the private, government and government-aided engineering colleges all over Tamilnadu. In this regard the University is taking Initiatives to impart technical knowledge in latest subjects and topics among the staff members of the affiliated institutions. UGC have accredited the University with a five star status in the year 2002. After the merger policy of 2011, Anna University constitutes 4 Regional Campuses, 12 Constituent Colleges and University Departments. Anna University Regional Campus-Tirunelveli, Tirunelveli is one among them and it offers 12 PG Programmes.

About the Department

The department of Civil Engineering is functioning since 2008. It offers M.E Structural Engineering, M.E Environmental Engineering and M.Tech Remote Sensing. The department has dedicated, dynamic and research oriented staff numbers. The department is conducting research on various latest fields.

Program Objectives

This programme aims at imparting in depth knowledge in the concepts of designing basic structural elements such as slab, beam, column and footing which forms part of any structural system with reference to Indian standard code of practice.

Course Contents

- * **Methods of design of concrete structures**
- * **Limit state design for flexure**
- * **Limit state design for bond, anchorage shear & torsion**
- * **Limit state design of columns**
- * **Limit state design of footing**

Mailing Address

Send the completed registration form and for any queries please contact

Dr. N.Sakthieswaran, Assistant Professor / Civil Engg.

Dr. O.Ganesh Babu, Assistant Professor / Civil Engg.
