University College of Engineering

BIT-Campus

Tiruchirappalli

University College of Engineering – Bharathidasan Institute of Technology (BIT) Campus, Tiruchirappalli has been established by the Government of Tamil Nadu as a Technical Institution at Tiruchirappalli - known as Rock Fort city, with rich cultural heritage and home, to many reputed educational institutions. The institution is established with a view to impart quality student centered technical education, so as to produce proven technocrats and to strive hard for continuous development and improvement in learning, research and developmental activities. Teaching, Research and Extension services are carried through the Departments and Centers of the Institution. The institution also works towards fostering partnership with academic and industrial experts to provide quality education and opportunities for entrepreneurial development by providing hands-on training in the frontier areas. BIT has carved a niche for itself in providing technical education in the disciplines that are unique in our country. Aiming at excellence, the institution offers UG, PG and research programmes in various disciplines.

Department of Computer Science and Engineering

The Department of Information Technology offers B.E. (Computer Science & Engineering), B.Tech (Information Technology), M.E. (Computer Science & Engineering), M.E. (Software Engineering) and M.E. (Mobile and Pervasive Computing). The department has dedicated and qualified faculty besides good infrastructure for computing. Research at this department is nurtured through various sponsored programmes funded by National organizations such as AICTE, UGC and Ministry of Communications and Information Technology

About the Programme

Compiler design principles provide an in-depth view of source code translation and target code optimization process. Compiler design covers basic translation mechanism and error detection & recovery. It includes lexical, syntax, and semantic analysis as front end, code generation and optimization as back-end.

This FDTP Promotes the teaching faculty member skill in compiler design subject. The objective of this FDTP is to give insights of the basic understanding of the key concepts in translation through different Parsing techniques and various optimization techniques used in compiler. It covers the CS6660 Compiler Design Syllabus.
