## **Anna University, BIT Campus Tiruchirappalli.**

### **About the Institution**

Anna University – BIT Campus, Tiruchirappalli has been established by the Government of Tamil Nadu as a Technical Institution at Tiruchirappalli - known as Rock Fort city, with rich cultural heritage and home to many reputed educational institutions. The institution is established with a view to impart quality student centered technical education, so as to produce proven technocrats and to strive hard for continuous development and improvement in learning, research and developmental activities. Teaching, Research and Extension services are carried through the Departments and Centers of the Institution. The institution also works towards fostering partnership with academic and industrial experts to provide quality education and opportunities for entrepreneurial development by providing hands-on training in the frontier areas. BIT has carved a niche for itself in providing technical education in the disciplines that are unique in our country. Aiming at excellence, the institution offers UG, PG and research programmes in various disciplines.

### **About the Department**

Department of Information Technology and Computer Science & Engineering offers B.E. (Computer Science & Engineering), B. Tech (Information Technology), M.E. (Computer Science & Engineering), M.E. (Software Engineering) and M.E.(Mobile and Pervasive Computing). The department has dedicated and qualified faculty besides good infrastructure for computing. Research at this department is nurtured through various sponsored programmes funded by national organizations such as AICTE, UGC and Ministry of Communications and Information Technology.

### **About the Programme:**

Image processing plays a significant role in the modern engineering and information processing systems. Image processing can be broadly defined as the manipulation of signals which are inherently multidimensional. The most common such signals are photographs and video sequences. This Value Addition Programme will be very helpful to students to nourish their teaching and practical knowledge. This Value Addition Programme aims to concentrate on recent advances and research oriented problems. Laboratory sessions include programs focusing on providing participants an opportunity to execute some of the programs in hands – on sessions.

### **Highlights of the Value Addition Programme**

- Recent Advances and Issues in Image Enhancement and Restoration
- Advances and Techniques required in Segmentation and Compression Standards
- Application in Medical and other related areas
- Research directions in Edge Extraction, Texture Analysis, Artifact Removal
- Value Addition in Frequency Domain Processing
- Content Based Image and Video Retrieval
- Image and Video Processing standards
- Image Security, Steganography and Watermarking
