ABOUT THE INSTITUTION:

Anna University Tiruchirappalli, Bharathidasan Institute of Technology (BIT) Campus has been established as a Technical Institute under Anna University, Chennai by the Government of Tamil Nadu. It offers a variety of UG, PG and research programmes and caters to the need of about 5000 students in the campus. The teaching and learning process emphasizes equality on theoretical and practical aspects catering to the needs of Industries.

The Institution has the following departments.

- Department of Automobile Engineering
- Department of Civil Engineering
- Department of Computer Science and Engineering
- Department of Electrical and Electronics Engineering
- Department of Electronics and Communication Engineering
- Department of Mechanical Engineering
- Department of Bio – Technology
- Department of Information Technology
- Department of Petro- chemical Technology
- Department of Pharmaceutical Technology
- Department of Computer Applications
- Department of Management Studies
- Department of Chemistry
- Department of English
- Department of Mathematics
- Department of Physics

The institution aims to provide student centered State-of-the-art courses besides excellences in research and developmental activities.

There is no substitute for hard work
The Department

The Department of Computer Applications established in the year 2007 offers Master of Computer Applications Ph.D (full-time & part-time). Our mission is to provide opportunities to students so that they understand the theoretical principles and apply them. To enable the students to continually master the evolving tools, techniques, trends in technology and management and effectively put them in practice in a cost effective manner. Our vision is to towards leading the way in area of computer application to them and nurtures the students to become successful technocrats thus benefiting the society and nation.

Android Application Development

The Android application development is to process of creating software applications that run on a Mobile devices. The mobile applications utilizes a network connection to work with remote computing resources. Hence the mobile application development process involves creating installable software bundles, implementing backend services such as data access with an API and testing the application on target devices.

Objectives

1. To draw basic graphical primitives on the screen.
2. To develop an application that use of data base and RSS feed.
3. To implement multi threading.
4. To develop GPS location information.
5. To develop write data to the SD card
6. To develop an alarm clock.

Targeted Participants:

UG & PG Students, Research Scholars and Faculty Members from Engineering and Arts & Science Colleges.

Important Date:

Last Date : 09-02-2020

Registration Fee:

UG & PG Students, Research Scholars and Faculty Members : Rs.500

Selection Criteria:

Registration will be accepted on the first come first server basis. The Registration fee has to paid in the form of D.D in the favour of “HOD/MCA” payable at Tiruchirappalli on or before 09.02.2020. The application can send the completed registration form along with D.D.to the address given below. (Spot Registration is also applicable).
