ABOUT THE COLLEGE

University College of Engineering Villupuram, (A Constituent College of Anna University) was started in the year 2008. The college offers five Under Graduate courses and a Post Graduate course in the field of Engineering and Technology. The college is situated at Kakuppam, Villupuram town with an extent of 17.5 acres which includes excellent academic building, hostel, mess and canteen. The college is well equipped with smart lecture halls, spacious conference halls, necessary laboratories and advance equipments for research and academic activities. The students from various places of Tamilnadu with different background are selected on the basis of merit through TNEA, conducted by Anna University. UCEV is identified as a center for conducting TANCET examination and issuing application for TANCET, TANCA and TNEA.

ABOUT THE DEPARTMENT

The Department of Information Technology was established in UCEV, in the year 2008 with the objective of imparting value added education for the society in the field of Information Technology. The Department is aspiring to prepare students for lifelong learning to undertake professional career in industry, research and teaching field. The Department of Information Technology has been continuously making progress in teaching and research activities. The Department offers the course by the syllabus and curriculum framed by Anna University. The IT Department has a team of highly qualified, experienced and dedicated faculty members to impart technical education. It has well equipped laboratories with all the required equipments and software needed for practical and research work for the students. The Department has Wi-Fi enabled class rooms to support e-learning. Soft skill training programs, workshops and lectures are being arranged for the student in order to inculcate employability skills and social focus on the minds of upcoming IT Professionals.

ABOUT THE WORKSHOP

The objective of the Cloud workshop is to enrich the knowledge of faculty members, research scholars and students to explore the emerging trends in Cloud Computing. With the emergence of Cloud Computing and other technologies, applications are increasingly driven by Cloud technologies. Participants will get an exposure on Virtualization, Cloud middleware, Hadoop and Introduction to Big Data.

Intensive hands-on sessions for Virtualization, Cloud Installation & Management and Hadoop.

Features of Cloud

- Cloud computing has the potential to reduce costs while increasing value by allowing the more efficient use of IT resources.
- Cloud computing can preserve capital is by upsizing your IT infrastructure on demand, at the user level.

Cloud Ongoing Works

- Vertical Scaling
- Scheduling
- Fault Detection is an essential building block for reliability, performance, load balancing and scheduling

Workshop Highlights

At the completion of the course the participants must be able to:

- Install, Configure and Manage private cloud (Cloud Administrator)
- Access the Cloud services - IaaS, SaaS, and PaaS (Cloud Users)
- Insight into the Cloud components, Architectures (Researchers, Academicians)

REGISTRATION DETAILS

- The course fee includes workshop kit, participation certificate and lunch.
- The participants must come with their college ID card.
- No Accommodation will be provided.
- Bring your laptops for hands-on session.

FEE DETAILS

UG / PG Students: Rs. 600 /-
Academician / Industry: Rs. 1000 /-

**ON-LINE REGISTRATION **

**ON-SPOT REGISTRATION **
