ABOUT THE CONFERENCE

The aim of NCRASE'17 is to create a platform for students, research scholars, academicians and industry professionals for enhancing their knowledge and starting recent minds in research and development and to discuss the emerging issues and novel methods. It will provide a gateway to exploring their knowledge in the area of recent advances in science, Engineering and technology. It will be a great opportunity for the people from various disciplines to share the new ideas in the following areas.

Topics Of Interest Include

(But not limited to the following)

- * Material Science
- * Nano Material
- * Welding
- * Optimization
- * Renewable Energy
- * Non Renewable Energy
- * Supply Chain Management
- * Simulation
- * Material Characterization
- * Advance Machining Process
