RESOURCE PERSONS

The workshop consists of technical sessions and presentations by experts from leading research institutes, organizations, renowned educational institutions and hi-tech industries.

WHO CAN PARTICIPATE?

Professionals from industry, scientists from R&D establishments, teachers from universities / colleges and students will benefit from participation in this workshop. They will get a chance to know about the current scenario in Nanomaterials and its future prospects.

The participants are requested to send advance copy of the filled-in application by e-mail at the earliest, followed by the hard copy of the filled-in application with registration fees. Selection will be based on first cum first serve basis.

ACCOMMODATION

The participants are expected to make their own arrangements for stay.

ABOUT ANNA UNIVERSITY (THOOTHUKUDI CAMPUS)

Anna University (Thoothukudi Campus) is one of the constituent engineering colleges of Anna University, Chennai. The campus is formed in order to expand the reach and enhance the quality of technical education in the southern part of Tamilnadu. Located in the heart of Pearl City Thoothukudi, Tamilnadu, the campus is known for its stimulating, resourceful, and collaborative environment - in the classroom, on campus, and around the city.

This institute is committed to provide a state-of-art education in the core fields of engineering and technology that reflects the changing and challenging needs not only for the students, but also employees of nearby industries. The campus is well known for its academic excellence, but knows its impact extends beyond teaching and research, to push the boundaries of human knowledge. That is the reason for us to believe in cross faculty and interdisciplinary learning. We aim to be at the forefront of research and learning that helps to improve lives. These two areas of focus will enable students to gain exposure to recent trends in their chosen domains of study and gain practical experience through a wide variety of activities the institute facilitates in its own campus. The campus offers four year full time undergraduate programme under various fields of engineering (Civil, Electrical, Electronics and Mechanical Engineering) and to serve the diploma holder engineers working in various government departments, research institutes and industries, this campus offers part-time B.E. Degree course from 2013 in Civil, Electrical and Mechanical Engineering branches.

We retain our pioneering spirit and a passion for innovation and excellence in all we do, we work with our student community to deliver high quality programmes that produce intellectually able graduates who are highly sought after by employers. We focus on Students career and we provide one of the best all round student experiences in the state of Tamilnadu.
