UNIVERSITY COLLEGE OF ENGINEERING
ANNA UNIVERSITY, BIT CAMPUS
TIRUCHIRAPPALLI-620 024

TEQIP II Sponsored National Seminar
On
“Enterprise Computing (SEComp’13)”
19th & 20th October 2013
Organized by
Department of Computer Science and Engineering

Envisaging Quality Education through Hard Work
There is no substitute for Hard Work
University College of Engineering
Anna University, BIT campus,
Tiruchirappalli- 620 024

Anna University, BIT Campus, Tiruchirappalli, has been established by the Government of Tamil Nadu as a ‘Technical Institution’ at Tiruchirappalli - known as Rock Fort city, with rich cultural heritage and home to many reputed educational institutions. The BIT institution is one of the constitution college of Anna University, Chennai. The Institution is established with a view to impart quality student centered technical education, so as to produce proven technocrats and to strive hard for continuous development and improvement in learning, research and developmental activities. Teaching, Research and Extension services are carried through the Departments and Centers of the Institution. The Institution also works towards fostering partnerships with Academic and Industrial experts to provide quality education and opportunities for entrepreneurial development by providing hands-on training. BIT has carved a niche for itself in providing technical education in the disciplines that are rare of their kind in our country. Aiming at excellence, the Institution offers Research programmes in English and UG/PG programmes in various disciplines.

Department of Computer Science and Engineering

The Department of Computer Science and Engg offers B.E (Computer Science & Engg), B.Tech (Information Technology), M.E (Computer Science & Engg) and M.E (Software Engg) courses. The Department has dedicated and qualified faculty besides good infrastructure for computing. Research at this Department is nurtured through various sponsored programmes funded by national organizations such as AICTE, UGC and Ministry of Communications and Information Technology.

About the Seminar

The aim of this seminar is to explore the concepts, techniques, recent trends and practices in enterprise computing. This seminar shall provide understanding of enterprise computing technologies in a multicultural and global business environment, improves job performance and promotes personal and professional growth and facilitate to Design, develop and implement computerized information systems.
