ABOUT THE INSTITUTE
Madras Institute of Technology is one of the premier technical institutions started in 1949 by Shri: C. Rajam, an eminent industrialist. The institute was established as a result of a bold experiment in technical education as it introduced, for the first time, totally unconventional Engineering courses such as Aeronautical Engineering, Automobile Engineering, Electronics Engineering, and Instrumentation Engineering. It was merged with Anna University in 1978.

ABOUT THE DEPARTMENT
The Department of Aerospace Engineering, established in 1949, has its core strength in the leading areas of modern Defense and Civil industries. The academic programs offered in the Department are B.E (Aeronautical Engineering) and M.E (Aeronautical Engineering, Aerospace Technology & Avionics) and PhD Research Programmes (Both Full time and Part time). The research areas include Propulsion, Aerodynamics, Aerospace Structures, Avionics, Navigation and Communication, Drone Technology and Guidance and Control. The Department has collaborative partners from academia and industry within India and worldwide.
