Significance of the FDP

Research and development in Life sciences has opened up new challenges and opportunities for pharmaceutical sciences, chemical sciences, bioinformatics, biotechnology, chemical biology and nutraceuticals. Explores in life sciences has enabled enormous breakthroughs in our understanding of fundamental molecular and cellular processes and mechanisms of life. The knowledge gained from the various fields of life sciences forms the basis of the molecular understanding of health and disease. It finds important applications in teaching, research, innovative health care, in the pharmaceutical industry and biotechnological industries.

This programme will in turn improve the faculty members to update their instructional strategies, increase their level of performance in teaching and enhance their ability to publish their research in journals and books. This interdisciplinary approach caters higher order thinking skills and integrated pedagogy to the participants. Besides, it will build the capacity of faculty members in their concerned field of research by exposing them to the latest concepts, information and techniques.

About TEQIP

Technical Education Quality Improvement Programme (TEQIP) aims to upscale and support ongoing efforts of GOI to improve quality of technical education and enhance existing capacities of the institutions to become dynamic, demand driven, quality conscious, efficient and forward looking, responsive to rapid economic and technological developments occurring both at national and international levels.

Objectives

The FDP will touch upon aspects of the research progress in the interdisciplinary fields of sciences.

- Enrich the young faculty to define the research problem and framework.
- Provide exposure to the participants to various inter disciplinary fields of research.
- Give a conceptual clarity of the research issues.
- Facilitate participants to observe different perspectives, work in groups, and make the synthesizing of disciplines, the ultimate goal.

The Organizing Institute – Anna University

Bharathidasan Institute of Technology (BIT) has been established as a Technical Institute under Anna University, Chennai by the Government of Tamil Nadu recently sponsored with TEQIP. BIT believes in creating and disseminating knowledge and skills in core and frontier disciplines through innovative educational programmes, industrial training, research & consultancy and developing a new cadre of professionals with a high level of competence, deep sense of social commitment and ethics. It offers a variety of UG, PG and research programmes with an approximate of 3000 students in the campus.

Department of Pharmaceutical Technology

The department offers a UG programme, B.Tech Pharmaceutical Technology, a unique course in India, caters to the technical aspects of the Pharmaceutical Industry. The budding Pharmaceutical Technology professionals are shaped by experienced, talented and motivated faculties. The department also offers PG Programmes, M.Tech. Biopharmaceutical Technology and M.S (By Research) besides Ph.D Programme. Centre for Excellence in Nanobiotechnology is under the progress of initiation. Department of Pharmaceutical Technology excels in research activities through centrally sponsored research projects to a tune of Rs. 850 Lakhs including Department of Science and Technology, Government of India; New Delhi sponsored “National Facility on Drug Development” for Academic Institutions, Pharmaceutical and Allied industries.

Department of Pharmaceutical Technology

REGISTRATION FORM

Name: Dr./Mr./Ms: ____________________________
Academic Qualifications: _______________________ 
Designation: ________________________________
Department: ________________________________
Phone: ________________________________
E-mail: ________________________________
Address: ________________________________
Pin code: ________________________________
Signature of the Applicant: __________________
Forwarded By: (HOD / Principal)
______________________________

Registration Details

Registration Fees: Rs.500 (7 days)
Last date for Registration: 13.08.2013
Number of registration is restricted to 30.

The payment should be made by D.D. drawn in favour of “The Dean” payable at Tiruchirappalli and send it by post/courier to Dr.A.Puratchikody, Co-ordinator (CDLS-2013), Dept. of Pharmaceutical Technology, Anna University, Tiruchirappalli-620024.

WHO CAN APPLY

Faculty members from disciplines of all branches of Science, Pharmaceutical Sciences, Biotechnology, Nanotechnology and Nutraceuticals.

Organising Committee

Chief Patron: Prof.Dr.M.Rajaram, Ph.D
Vice Chancellor
Patron : Dr.S.Ganesan, Registrar
Chair : Dr.S.Muttan, Regional Director
Co-chair : Dr.R.Krishnamoorthy, Dean
Convenor : Dr.K.Ruckmani, Head of the Department
