ABOUT THE DEPARTMENT

The Department of Printing Technology was established as a division in the year 1983, first of its kind in South East Asia to start an Engineering Programme in the field of Printing Technology under the Faculty of Mechanical Engineering. In the year 2019 the B.E. Printing Technology programme has been renamed as B.E. Printing and Packaging Technology. Consequently, the Department is also renamed as Department of Printing and Packaging Technology.

The Department offers various courses like

- B.E. Printing and Packaging Technology.
- M.E. Printing & Packaging Technology.
- M.S.(By Research)
- Ph.D.

The laboratories are well equipped with modern machines, state-of-the-art equipment and latest software to enable the students in developing their practical knowledge. The department maintaining a high placement percentage in College of Engineering, Guindy, Anna University. Our alumni are doing great service for our department's welfare. The Department has excellent relationship with the industry.

ABOUT THE COURSE

The learning environment in higher education institutions needs to be dynamic than ever before. Today's learners are technologically more advanced and expect creative teaching techniques that will increase their attention span and learning. The demand for versatile and agile teachers who can swiftly switch between activities and master the technologically driven digital transitions is critical. Different methods of modern teaching, ensure that the students are provided with practical knowledge, critical thinking and decision making skills.

The education ecosystem has revamped the learning processes to incorporate student-centric teaching methods. Flipped classrooms, collaborative learning, game based learning, videos and animations, micro-learning content, and quizzes help grab students' attention and drive more focused learning sessions. Academic instructors need to be trained in these techniques to use them effectively to impart knowledge.

COURSE CONTENT

- Advanced presentation methods
- Interactive and blended learning platform
- Online design and publishing tool
- Enriching presentations with video and animation
- Game based learning
- Creative teaching techniques
