

CENTRE FOR BIOTECHNOLOGY

The Centre for Biotechnology was established in 1987 in Anna University with financial support from the Department of Biotechnology, Delhi, University Grants Commission, Delhi and Anna University.

The Centre has a state of art laboratory at Taramani with facilities for carrying out research in various areas of Biotechnology, housing modern infrastructure to conduct research in Bioprocess Technology, Immunology, Drug Discovery, Chemical Biology, Computational Biology and Stem Cell Biology.

Several laboratory findings have been published in reputed international journals and presented at many national and international conferences. Many patents have been filed and granted. A WHO approved diagnostic kit was made for Lymphatic Filariasis.

The areas of research are contemporary and the Centre boasts of a good mix of experienced researchers and vibrant faculty.

AVIDADHAM '18

Avidadham'18 is an International Conference organized by the Department of Biotechnology, Anna University, Chennai. Avidadham'18 in its 6th edition aims to bring the students at par with the latest trends in diagnostics at the field of medicine especially in the context of lifestyle diseases.

The main goal of Avidadham is to provide not only a challenging forum for all the participants but also to serve as a wonderful platform for them to interact with reputed researchers from all around the world. This will not only bring awareness to the current trends in the field of medical diagnostics and therapeutics but also enable them to launch their career as a researcher.

Our aim is to facilitate the nurturing of the intellectual minds towards a scientific approach and invention development.
