

ABOUT THE UNIVERSITY

Anna University is a premier technological University in India and is committed to provide excellent and effective engineering education to enhance the technical and analytical skills as well as the moral standards of the student community. Besides promoting research and disseminating knowledge gained thereon, it fosters cooperation between the academic and industrial communities. The University has established collaborative research programs with world class institutions from various countries. Anna University is ranked 6th in the university category by National Institute of Ranking Framework.

ABOUT THE DEPARTMENT

The Department of Textile Technology was established in the year 1945 at Alagappa College of Technology under University of Madras with the purpose of achieving excellence in providing education in the field of Textile Technology. The Department gives emphasis to establish industrial and academic

collaboration on specialized areas of study and this has positioned the Department as the harbinger of progressive changes and innovations.

The Department is continuously engaged in modernizing the laboratories and carrying out research projects from the funds provided by various funding agencies like DST, UGC, BRNS, AICTE, ICMR and CSIR and the industry. The Department is also funded with UGC DRS Phase –II programme.

WORKSHOP

On

Advances in Nano Materials for Healthcare Applications

19.03.2018 – 25.03.2018

**SPONSORED BY
UGC - SAP**

ORGANIZED BY

**DEPARTMENT OF
TEXTILE TECHNOLOGY
ANNA UNIVERSITY
CHENNAI-600025**

ABOUT THE PROGRAMME

Nano materials are finding application in different domains of healthcare including implantable, non implantable and hygiene products. The academicians and researchers need to understand the present status of nano material in development of healthcare devices.

The 'Work Shop' is aimed to explain about the synthesis and characterization of nano materials and nano fibres, and nano finishing techniques and also the applications of the above in various fields.

The topics to be covered in the workshop are:

- ❖ Science of nano materials
- ❖ Nano materials synthesis and characterization
- ❖ Nano fibre production and characterization
- ❖ Nano finishing for health care applications
- ❖ Nano materials for health care applications
- ❖ Nano fibres for health care applications
- ❖ Development of health care products, characterization and application

Who May Benefit

The workshop would benefit the faculty members, research scholars from Universities, affiliated/autonomous institutions in engineering and science disciplines.

Registration Fee: Rs. 1000/-

The demand draft is to be drawn in favour of “The HOD, Department of Textile Technology, Anna University, Chennai” payable at Chennai

Participants are requested to make their own arrangements for the accommodation.

Submission of Registration form

Interested applicants are requested to mail the duly filled registration form along with registration fee to the contact address provided. Last date for the receipt of the form is 14.03.2018.

The registration will be based on first come first served basis.

REGISTRATION FORM

**One week workshop on
“Advances in Nano Materials for
Healthcare Applications”
19.03.2018 – 25.03.2018**
