SOFTWARE FOR DATA MINING

DATE: 17th & 18th Sep 13

TWO DAY NATIONAL LEVEL WORKSHOP

ORGANIZED BY
DEPARTMENT OF COMPUTER APPLICATIONS

ANNIVERSARY OF UNIVERSITY"
ABOUT THE UNIVERSITY

Anna University was established on 4th September 1978 as a unitary type of University. It offers higher education in Engineering, Technology, and allied sciences relevant to the current and projected needs of the society. Besides promoting research and disseminating knowledge gained therefrom, it fosters cooperation between the academic and industrial communities. Anna University is of the affiliated type and is a member of the Association of Indian Universities, UNESCO International Center for Engineering Education (UICEE). With proven capabilities both in academic and research areas, Anna University was able to impart quality and excellence in Technical Education. Anna University has four Regional Centres at Coimbatore, Madurai, Thiruchirappalli and Thirunelveli to spearhead the academic activities throughout the state.

ABOUT THE COURSE

Governments, private companies, large organizations and all businesses generate large volume of data every day for the purposes of business and research development. However it is trivial process to store and retrieve knowledge from the data. To alleviate this issue data mining algorithms can be used for analyzing data from different perspectives and summarizing it into useful information. All kinds of data mining algorithms need software that allows users to analyze data from many different dimensions or angles, categorize it, and summarize the relationships identified. Plenty of data mining software are available in the market and again it becomes a head ache for the researchers in choosing a right tool for their work. This workshop will provide an overview of various software for data mining and its importance. Further this workshop will give hands on training in laboratory for some popular data mining software which in turn will ignite the minds of researcher to proceed with their work.

TOPICS TO BE COVERED

- Trends in data mining
- Recent data mining algorithms
- Overview of data mining software
- Hands on training using
  - WEKA
  - Orange
  - RAPID MINER
  - SPSS
  - MATLAB
