Department of Electronics and Information Technology,
Ministry of Communications and Information Technology,
Government of India.
University Workshop on Nationale-Governance Plan is a One-day workshop programme jointly organized by the Department of Information Technology, Anna University and Department of Electronics and Information Technology, Ministry of Communication & Information Technology, Government of India, New Delhi on December 19, 2012 at Rajam Hall, Madras Institute of Technology, Anna University.

About Anna University Chennai
Anna University is a Premier Technical University in Tamil Nadu, India. It has been ranked 5th Best University in India. Anna University was established on 4th September, 1978 as a unitary type of University. Its constituent colleges are College of Engineering Guindy, Madras Institute of Technology, Alagappa College of Technology and the School of Architecture and Planning. It offers higher education in Engineering, Technology and allied Sciences that are relevant to the present needs of the society. Anna University successfully launched university micro-satellite 'ANUSAT' sponsored by ISRO which was functional for three year period (2009 – 2012).

About Madras Institute of Technology (MIT)
Madras Institute of Technology is a pioneer institute, established by the great visionary and industrialist Shri C.Rajam on 18th July, 1949. MIT campus of Anna University offers higher education with the objective of devising and implementing programs of education in engineering and technology, constituting a blend of the conventional and unconventional career courses in UG, PG & Ph.D levels that are relevant to the current and projected need of society. This is reflected in the profile of the vast number of MIT alumni occupying key positions in various MNCs and Research Organizations all across the globe. Shri Dr. A.P.J. Abdul Kalam, our formal President of India is an illustrious alumnus of MIT.

About Department of Information Technology
The Department of Information Technology was established in the year 2000 with the objective of imparting knowledge towards cutting-edge technologies in Information Technology (IT). The department has well equipped laboratories with facilities that are vital to train the students in state-of-art software and hardware. IT department has received funding from (i) DST - FIST scheme for setting up Sensor Network and Cloud Computing lab, (ii) DST - NRDMS for the project “Complex Event Processing in Sensor Networks”, (iii) UGC - DRS - SAP research grant for Pervasive Computing, (iv) UGC major research grant for the project “Video streaming in 3G wireless networks for Telemedicine Application”. This department organizes several workshops, conferences (ICRTIT) and Faculty Development Programs for the benefit of the society.

Registration
• Last Date of Registration: 19.11.2012.
• Complete registration form may be submitted to the Convener, NeGP, Department of IT, MIT Campus, Anna University, Chromepet, Chennai-600 044 or email to negpmit@gmail.com
• There is no registration fee, however, due to limited number of seats the registration confirmation will be on the basis of first come first serve.

About the Workshop
➢ To generate awareness about e-Governance in general and National e-Governance Plan (NeGP) in particular.
➢ To create awareness among students about the various opportunities being created in this domain career-wise as well as about the proposed electronic delivery of various services.
➢ To encourage academicians for doing more research work in this domain which is relevant to Indian context and which can provide insights into improving project implementation and sustain ability.

About NeGP
The National e-Governance Plan – NeGP is changing the way people access Public Services. With this ‘single-window’ concept, one can access most public services closer to home at an affordable cost. A common digital service delivery infrastructure is being created in every State and Union Territory to ensure seamless and single-window delivery of public services to the common man. Whether it’s about putting up an application for a passport or tracing the pension cheque, or it’s about getting the name of a new company registered or quick processing of land records, now citizen can get all information and many transactions done at the touch of the button anytime, anywhere.

With a growing emphasis on citizen-centricity in the delivery of public services the Department of Electronics and Information Technology (DeitY), Government of India has formed the National e-Governance Division (NeGD), National Informatics Centre (NIC) and National Institute of Smart Government (NISG) for assisting DIT in the Programme Management of NeGP, active promotion and implementation of ICT solutions in the government.

Who Can Participate
➢ Faculty members of the University.
➢ PG/Research students of Engineering, Management & Social Sciences.
➢ PG/Research students of other disciplines.
➢ Industrial Professionals.

Workshop on National e-Governance Plan
19th December 2012 | Rajam Hall, MIT, Anna University
