******

It has been brought to the notice of the Vice-Chancellor that some of the supervisors are having contact with the examiners after submission of panel of examiners to the University. The above action of supervisors as well as research scholars will jeopardize not only the value of the research ethics but also will undermine the entire system of the programme.

In view of the above, all supervisors and research scholars are requested not to have any contact with the examiners in any form after furnishing panel to the university. If any such contact established by the supervisor / research scholar is brought to the knowledge of the university beyond doubt then it will lead to de-bar the supervisor from the supervisor ship and in case of the research scholar the registration of the research scholar will lead to cancellation irrespective of the status of the research. All Supervisors and Research Scholars are requested to co-operate with the university to sustain the value and to uphold the quality of the research in this university.
